THE REPUBLICAN PARTY

We hear a great deal of noise just now from the opposition papers about the reverses to the Republican party in New Hampshire and Connecticut, and some of the more sanguine are already discovering signs of the overthrow of the Republican party. No one will seek to deny that the ties of mere party organization are greatly relaxed at the present time, in the absence of any great pending issue upon which parties are divided, but this fact can only prove advantageous to the Democratic party through the suicidal negligence or blind indifference of the leading Republicans of the country. The fact is that the division of sentiment among the masses on all the great questions which have been in controversy during the past twenty years, is practically the same to day as it has been. The conviction that the most of these important issues have been settled beyond recall, and not and difference or forgetfulness of the principles involved, affords the explanation of this relaxing of party discipline, and it only needs the alarm of an attempted reenactment of Democratic heresies to bring the people again under arms in the serried ranks of other days. The present is as full of glorious opportunities for the Republican party as any period of its history, if its leaders only read aright the signs of the times, and shape their course in obedience to the demands of the people. It is still the safe guard and foundation of the intelligent masses of the nation, and by making their cause its own it will render itself invincible in the future as in the past.

We are now at a period when the abuses growing out of the prodigal disbursements necessitated by civil war, are being scrutinized and overhauled by a people who have recovered from the excitement of the war period, and all that they ask of the dominant party is to mete out justice to all offenders and to stamp out corruption and wrong wherever it is discovered. The people demand that during this lull of political strife the machinery of government shall be thoroughly investigated and that the abuses which have crept in by degrees shall be ascertained and remedied. It is a great task for any political party to undertake a thorough and unrelenting inspection of the faults of its own members and its own management, and it is safe to say that the Democratic party would never have attempted such an achievement. This, however is what the people and the times are demanding of the Republicans in power and according to the faithfulness of the performance of this service will be the measure of the reward of public confidence.

On the great financial question the forces are not divided by party lines, but in the work of reform the Republican party must not only take the lead but perform the labor for the country has placed it in power and holds it to a higher degree of responsibility than was ever imposed upon any other organization. We think that it is making a vigorous effort to perform this duty and we know that the great majority of the people look to it as the most desirable agency of reform. There is no reason to break away from the glorious associations of its past career, or to abandon the colors under which such glorious victories have been won. It only needs that the best men shall come to the front and that they shall stand on the platform commanded by the great issues of the time as a continuation of the principles which have marked the progress of the Republican party, from the election of Abraham Lincoln to the ratification of the 15th Amendment to the Constitution of the United States.

The Speaker of the House of Representatives of Massachusetts, has decided not only that boarding house keepers have a lien upon the baggage of their lodgers, but that the hotel attaches as well, who furnish, with or refer to any stated time for payment.

UNITED STATES COAST SURVEY REPORT. The annual report of the Chief Signal Officer has been issued from the Government printing offices. It makes a volume of 1000 printed octavo pages. The correspondence of the officer's several divisions is extensive, 4,000 letters having been sent and 217,000 received during the last year. The aggregate of the correspondence is 21,000 letters and documents sent and received, exclusive of postal cards and telegrams. Fifty-two circulars connected with many foreign correspondents, and last January the exchange of simultaneous reports between Europe and the United States commenced. The reports are as nearly as possible uniform in character as to atmospheric pressure, temperature and rain, relative humidity and clouds. The volume contains much valuable scientific information, illustrated by diagrams and maps, indicating the course of tornadoes, storms and cyclones, also a chronological list of storms observed at the respective signal service stations from November 11 1870, to July 31 1873 inclusive. A list of disasters to shipping on the great American lakes during the year 1873 is given, from which it appears that the number of vessels sunk is 12, destroyed by fire, 7, damaged by fire, 8, dismasted, 11, disabled, damaged &c., 100, damaged by collision, 15 struck by lightning, 7, ran aground, 10 sprung leaks, 36, ashore and afloat, 143. Total, 40. Sailors drowned, 10, killed by falls &c., 10, serious injuries, 11. Total, 31. The meteorological record is very elaborate. The volume contains the report of F. Meyer, observer in the signal service who gives a general description of the voyage of the steamer Polaris, from New York to Godhavn, Disco.

The Senate Committee on Printing present a bill proposing to fix the prices to be paid for labor at the Government printing office at the average prices paid for similar work at New York, Philadelphia and Baltimore, authorizing the Government printer to contract for work when he deems it expedient and prohibiting in future the Supreme Court and Court of Claims records unless the United States is a party thereto.

Pennsylvania newspapers are discussing candidates for the election next fall, when a Lieutenant Governor and two Judges of the Supreme Court will be chosen. At present, the chief interest is concerning the nominees for Judges, since the minority system provided for by the new Constitution insures the election of one candidate by each party. The nominations by the Convention are therefore virtually elections, as each elector can vote for only one candidate.

THE ANTI INFLATIONISTS. The New York *Times* takes as a test vote on inflation that given in the House Saturday on Mr. Kellogg's motion to lay the pending currency bill on the table. The vote on this motion was 82 to 105. Those who voted to lay the bill on the table are distributed among the States as follows: Maryland, 5; Kentucky, 3; New York, 23; Ohio, 4; Alabama, 1; the New England States, 28; the Pacific Coast, 5; Pennsylvania, 4; New Jersey, 4; Wisconsin, 1; Mississippi, 1; Illinois, 1; Virginia, 11; and Michigan, 2. The 105 voting in the negative are distributed as follows: Kentucky, 6; South Carolina, 4; Tennessee, 9; Minnesota, 3; Ohio, 14; Wisconsin, 7; Illinois, 16; Michigan, 7; Georgia, 7; Pennsylvania, 17; Missouri, 12; Virginia, 7; South Carolina, 4; Alabama, 6; Indiana, 11; New Jersey, 4; Kansas, 3; Iowa, 8; Nebraska, 1; Louisiana, 2; Delaware, 1; New York, 6, and Florida, 2. The number of Democrats voting to lay the bill on the table were thirty, and the number of Republicans on the same side were forty-two. The number of Democrats voting against laying the bill on the table were forty-two, and the Republicans 128.

Chief Justice Carter of Washington, on Tuesday ordered the Police Court to stay proceedings in the Chance-Burt libel suit and send the case up to the District Court. The order was based on the fact that the Lower Court has no authority to empanel a jury.

The editor of the *Economist* writes in an open letter to President Grant "A veto against expansion would be heartily sustained by public opinion, and would be duly respected by Congress on a sober second thought." Referring to the Republican party's pledges in favor of resumption, the writer adds "It is reserved for you alone to hold it to the performance of the promises made over and over again in National and State Conventions."

The New Orleans *Bulletin* of the 5th instant says: "From a letter received a day or two ago by a gentleman of this city from Senator Carpenter, we are assured that so soon as the pending financial measures are disposed of by Congress, the bill for a new election in Louisiana will be called up and passed by its friends. Mr. Carpenter is still sanguine that the bill will prevail."

Two women in Mt. Vernon, Illinois, threatened to blow out the brains of a doctor if he did not revoke the prescription upon which the husband of one of them obtained liquor, and then demanded with the same threat of the apothecary that no more liquor should be sold him. Both demands were acceded to. The affair created much excitement.

A REPORT CONTRADICTED. The *Boston Journal* is authorized by Mr Geo F. Field, General Passenger Agent of the Eastern Railway to contradict the statement to the effect that Manager Ratch of the Eastern road was to retire, and be succeeded by Superintendent J. S Prescott, Mr P to be succeeded by General Agent Batchelder, and Mr. B to be succeeded by Mr. Hatch, the Road Master.

THE ROAD TO REPUDIATION. A Washington correspondent states that in a conversation yesterday morning with an old Southern politician of thirty odd years' experience in public affairs, he advanced some startling but growing opinions touching the necessities of the South and West calling for more currency, and the advantages that will be gained to these sections from an inflation and a depreciation of our paper money. But, proceeding still further, the Southern philosopher not only expressed the opinion that in that on at this late day would open the door to repudiation, but that repudiation, the time-honored method of abolishing a paper currency, would be cheerfully accepted by the South, and not seriously resisted by the West, and would be a great blessing to the country. An inviting prospect, truly.

Building in New York, this spring, is much less busy than usual. Some say it has fallen off one half. No houses are projected costing over $20,000 and not all and of the carpenters, painters and masons are said to be idle.

PRESIDENT GRANT STILL ALIVE. The following dastardly proposition was published in a Missouri paper last fall, and copied into some of our Eastern papers by way of curiosity

"ST LOUIS, MO., Oct 1, 1873

To the Editor of the Leader in Connection — Please publish the following card. I propose to bet five thousand dollars ($5,000) that President U S Grant, unless he dies from natural causes, will be assassinated before the 30th day of April, 1874.

If accepted, the money to be deposited on or before the 15th day of November next.

Parties desiring to wager larger or smaller amounts can address me, at St. Louis, Mo., or through your columns. Respectfully,

H CLAY HARPER."

This is the 14th of April, President Grant is still alive and well, and if Clay Harper had any person as vile as himself to bet with him, he has lost his money.

THE GENEVA AWARD. At the meeting of the House Judiciary Committee Tuesday, several of the most important points connected with the proposed legislation for the distribution of the Geneva award were determined. By a vote of 6 to 5 it was decided that the distribution should be made by a court and not by a commission. It was then agreed by a vote of eight to two, that the business should be done by a single court instead of by any circuit court before which any claimant may appear, as proposed in one of the pending bills. By a to four the committee next voted that the actual losses allowed by the Geneva tribunal, only, should be paid. A motion to include the actual losses presented but not allowed was lost by a tie vote. It was decided by the same vote of six to four to admit the war risks on such losses as were allowed at Geneva, and by a like vote Mr. Butler's section, to allow insurance companies to participate in the award when they can show that their losses on war risks exceeded their total receipts from war premiums, was adopted. It was further agreed that the interest on actual losses should be paid at the rate of five per cent. from the date of the losses.

LOUISIANA POLITICS. There was quite an animated debate on Louisiana politics injected in the discussion on the Territorial Railroad bill in the Senate, Tuesday. Senator Carpenter wanted to commence a discussion on Louisiana politics, in accordance with notice previously given by him. He stated that last summer, when he was at New Orleans, he had promised the people there that if they would abstain from violence he would present their case to the Senate, and he desired to do so.

Senator Sherman replied that every one would acquit the Senator from Wisconsin with not having done his duty, but there was no occasion for debate. He was informed by both sides in Louisiana that the Kellogg government was acquiesced in and would be supported until the new election this fall.

Senator Carpenter expressed surprise at this statement, and declared that if there was acquiescence it was enforced by the strong arm of the United States.

Senator Morton declared that Mr. Carpenter's bill was the chief element of the present disturbance in Louisiana, and he eulogized the Kellogg government. This debate was continued by Senators Salisbury and Ferry, and Senator Carpenter finally agreed to a postponement of the question until Wednesday.

CHIEF JUSTICE WAITE'S FIRST OPINION. Chief Justice Waite declared his first opinion on the bench of the Supreme Court Tuesday, in a case from Illinois touching the right of a State to tax non-resident national bank shareholders at the residence of the bank. Members of the bar who heard it and his brethren on the bench speak of it in eulogistic terms. The court below decided that the tax could not be thus laid, and this decree was against the collector. That decree is here reversed, the court holding that shares of stock in national banks are personal property. Under the national bank act they are a species of personal property, say the court, which is in one sense intangible and incorporeal, but the law which creates them, separates them from the person of the owner for purposes of taxation and gives them a status of their own. This has been done, it is held, by the banking act.

POLITICAL AND PERSONAL.

The *New York Journal of Commerce* quotes from seven campaign or inaugural addresses of President Grant, as evidence that he is bound to veto any legislation looking to an expansion of the currency.

Senator Bontwell stated that his health is slowly improving and that in a few days he expects to be able to attend to all his official duties as formerly. The rumor that he contemplates resigning are untrue.

DR SCHENCK'S

Standard Remedies.

The standard remedies for all diseases of the lungs are Schenck's Pulmonic Syrup, Schenck's Sea-Weed Tonic, and Schenck's Mandrake Pills. These three medicines are generally used together in all cases of pulmonary disease.

The Pulmonic Syrup ripens the morbid matter in the lungs; nature throws it off by an easy expectoration, for when the phlegm or matter is ripe, a slight cough will throw it off, the patient has rest and the lungs begin to heal.

To assist the Pulmonic Syrup to do this, take a few Mandrake Pills and Schenck's Sea-Weed Tonic, or as many as may be used to cleanse the stomach and liver. Schenck's Mandrake Pills act on the liver, causing all secretions to flow freely; also, they act on the stomach, relieving it of its bilious matter, and cleansing the whole alimentary canal from all impurities, carrying off disease by the way of the bowels.

Schenck's Sea-Weed Tonic is a gentle stimulant and alterative, the object of which is to prepare an appetite for food and promote digestion. It assists the above medicines in toning up the stomach to a healthy condition, so that the food and Pulmonic Syrup will make good blood, then the lungs heal, and the patient will surely get well if he is to be restored to health.

Dr. Schenck's advice can be consulted at the Quincy House, Boston, on Wednesday, March 25th, April 8th and 22nd, and May 6th, from 9 A. M. to 3 P. M.

Advice will be given free, but for a thorough examination of the lungs with the Respirometer, the charge is $5.00.

Schenck's Medicines are sold by all Druggists throughout the country.

Schenck's Almanac can be had of all Druggists, free.

If the House agrees that the Senate could ... bill here properly the points ... by the gentleman from Massachusetts and Ohio fail because the House cannot consider that the Senate originated this bill properly and sent it here properly and then ask the Chair to rule that it was a tax bill and impose a public burden.

Mr. Garfield—Then the House cannot waive its right on a grave question as between the two branches and then ask the Chair to enforce a minute rule as to the mode of proceeding? The greatly graver question is as to whether the bill properly originated in the Senate. If that question be not raised the Chair is bound to presume, and can have no other presumption, that the House regards the bill as properly here.

Mr. Garfield—Then I raise the question that it must properly have and should have ... the Senate.

The question was put whether the House should so decide and it was negatived. Yeas ... nays 179.

Mr. G. F. Hoar then made the point of order that the bill required expenditures of money for printing national bank notes, and that therefore under the rule the bill must first be considered in committee of the whole.

The Speaker overruled the point of order because the expense was to be deducted from the banks, and was not to be a charge on the treasury.

Mr. Maynard then moved the previous question on the Passage of the Senate bill and it was seconded 121 to 50, the bill then passed yeas 140, nays 102.

THE TEXT OF THE BILL

is as follows: That the maximum amount of U S notes is hereby fixed at $400,000,000.

Section 2. That forty-six millions in notes for circulation, in addition to such circulation now allowed by law, shall be issued to the national banking associations now ... and such increased circulation shall be distributed among the several States as provided in section 1st of an act entitled an act to provide for the redemption of the 3 per cent. temporary loan certificates and for an increase of national bank notes, approved July 12th, 1870; and each national banking association ... organized or hereafter to be organized shall keep and maintain as part of its reserve required by law one-fourth part of the sum received by it as interest on bonds of the United States deposited as security for circulation, notes or government deposits, and that hereafter only one fourth of the reserve now prescribed by law for the national banking associations shall consist of balances due to an association available for redemption of its circulating notes from associations in the cities of redemption and upon which balances no interest shall be paid.

The statement of the whole question now is that while the House bill has to await the action of the Senate, which may or may not be favorable, or may be delayed indefinitely, the Senate bill goes directly to the President for his signature.

The House, at 5.15 adjourned.

WASHINGTON

NOMINATIONS BY THE PRESIDENT

WASHINGTON, April 17. The President has sent the following nominations to the Senate to-day: F. C. La Grave of Wisconsin as consul at Leghorn; Jay T. Howard, consul at Quebec; Robert Frazer, consul at Palermo; Francis Newman of Ceylon, consul at Ceylon; Thomas Russell of Massachusetts to be resident minister to Venezuela.

THE GENEVA AWARD.

The House Judiciary Committee to-day by a majority of one voted to report and recommend the passage of the bill for the distribution of the Geneva award, the provisions of which were telegraphed yesterday.

THE CIVIL SERVICE.

NEW YORK, April 14. The Committee of Civil Service Reform have authorized a bill to be reported to the House reorganizing the Treasury Department which reduces the present force over 300 and reduces the expenses annually $400,000 per annum. It abolishes all distinction of sex as to salary omitting the word female, thus making women subject to the highest grade of officers in the department.

THE PRESIDENT'S POSITION

A Washington despatch to the Herald states that President Grant considers it desirable that the Government return whatever payments as soon as practicable. He thinks that the national banks should resort as a reserve, rather the whole or a part of the gold interest accruing upon the bonds pledged as security for their issue, and the Treasury, he thinks, should similarly strengthen itself with a view to resumption. He is opposed to inflation in general principles, but thinks it would be unwise for him to communicate to Congress what he would do in the event of a financial bill being presented to him for his signature.

THE SANBORN CONTRACTS.

WASHINGTON, April 14. Tom Ways and Means Committee to-day examined A J Odell Treasurer of the Delaware & Lackawanna Railroad, and Lucien Hawley, Supervisor of Internal Revenue for New York State, in relation to circumstances under which his company paid $89 83 back taxes to the government, decisions of the Commissioner of Internal Revenue. Finally the question having been decided, the statement was made up by Odell and the tax paid. He had never seen or heard of Sanborn or any of his agents in connection with the matter, and was completely surprised when he subsequently saw by the printed official documents that a bait the amount had been paid by the Government to Sanborn. His attention was called by a member of the committee to the fact that although he had sent a check for the amount direct to the Secretary of the Treasury on the sixth of January last, a letter from Sanborn to the Secretary of the Treasury, bale five days afterwards, states the date, amount of the check, and that the money had come to hand by him (Sanborn). These part others could not be ascertained by Sanborn except through the Treasury Department.

HAWLEY'S STATEMENT

showed that although Sanborn's contract for railroad taxes was dated the 7th of July, 1871, he had obtained co-operation of himself and associates at least two months earlier. In the examination of Hawley, he gave as a reason why he was not astonished at the Sanborn contracts, that he had already been operating in collecting derelict revenue taxes in New York under a contract with Wm P Wood. He had collected $11,000 from one Henry Howard, and $21,000 from a man named Wallace. The existence of such

CONTRACTS AS SANBORN'S

so used to astonish the committee very much Hawley gave the names of Udall, Shaw and Stuart, who, while in the employment and pay of the Government, had been turned over to and Sanborn. He did not know that Sanborn had paid them anything, but he did know that they had received their pay regularly from the Government.

He was interrupted by Mr Randall as follows:

Question—Did Sanborn give you any information to any case as to taxes, or did he suggest the case?

Answer—He never gave me any written information; he would name a case and come to speak about it.

Q—What advantage was it to you or to the Government to have Sanborn connected with the Delaware & Lackawanna Railroad in the matter?

A—Merely to call attention to it and set on foot an examination.

Q—Was it your duty as Supervisor of the District of New York to see that the assessors and Collector did their duty?

A—The law makes it my duty to see that all laws and instructions are carried out.

Both witnesses were instructed to furnish the committee with copies of certain telegrams and communications.

THE LOSS OF THE EUROPE

BY WIRE STATEMENTS.

NEW YORK, Apr 14. Detailed statements of the various persons on board of the steamships, Europe and Greece, are in print this morning, but they are all in the same as hitherto telegraphed. Ted Canfield of the Europe says that he was not allowed to return to his ship by the officers of the Greece, but this is positively denied by the latter.

THE COLLISION

between the Greece and the Europe occurred after the rescue and was caused by an effort to turn the latter around. She struck the Greece near the stern, making quite a hole, and, for a short time, there was quite a panic, but no more ... damage was caused. The French Captain feels indignant at his alleged ill treatment.

THE PASSENGERS.

A bride, named Anna Hassler, coming home to be married, gives her experience and is very sad at the loss of her wedding trousseau which cost $600, but is thankful that her life is spared. A French woman saved her pet parrot and a New York Doctor saved his private bull dog, but none saved their baggage. A number of small children were much frightened, but were all saved by being fastened together and let down into the boats in blankets. The wife of one passenger would ... after being taken from the vessel and continues so.

THE CARGO.

The French purser says that the cargo of the Europe was worth two and a half million of francs. There were 5,000 baskets of champagne, an immense quantity of valuable ... and about 40 tons of candles. Engineer Douglass, of the Greece, says the Europe never should have been abandoned.

A valise containing valuables was thrown out of a boat by one of the Europe's sailors saying no luggage was allowed, but it was picked up by another boat. The valise contained the watch of Miss Hunter who was saved from the Villa de Havre. It has been forwarded to the family at Newport. The Europe passengers have signed testimonials to Capt. Lemaire testifying to his fortitude in saving them. And to Capt. Thomas, of the Greece for hospitality.

NEW YORK CITY.

COMMITTED FOR LIBEL.

NEW YORK, April 14. Rich. Wilkes was this morning committed in default of $5000 bail for an alleged libel on John R. Chamberlain. The counsel for defence will apply to the Court of Oyer and Terminer for a writ of certiorari.

CHEAP TRANSPORTATION.

It is stated that the Congressional Select Committee on transportation to the seaboard have favorably considered the necessity of lending aid to the improvement of Erie canal so that vessels may be capable of floating a one thousand ton ship from the Mississippi River to the Hudson, thence on through New York to the sea. It is also proposed to improve the Wisconsin River from the Mississippi River; also to improve the Fox River and make a canal to Green Bay, Wis., whence a connection with the Lakes will be effected.

DEATH OF AN EDITOR.

Joseph Barber, well known as a former editor of the N. Y. Sunday Times, and Tory Whig, and as a writer under the nom de plume of the "Disbanded Volunteer," died yesterday at his residence in the city. He was 66 years of age.

DEFAULTER ARRESTED.

Frederick Kennow, formerly cashier of the Hoboken Savings Bank, was arrested in London a few days ago by a London officer, who kept him until the arrival of Officer McDonough of Hoboken. The latter officer is on his way home with his prisoner. Kennow absconded with $110,000 of the funds of the bank, but only $18,000 was found on him when arrested. He has been accompanied in his travels in Europe by a female companion.

BANQUET TO A PLUCKY BRITON.

Commodore Berry, Gen. Hancock and other members of the Committee will to-day tender a banquet to Capt. Lambton Lorraine by the Army and Navy Club, for his services and gallantry while in command of the British war ship Niobe at Santiago de Cuba in the Virginius case. Prominent Cubans will unite in the demonstration.

A MORMON'S STATEMENT.

Among the passengers on the Europe was Dr L S Burridge of Boston. His statement is only that great confusion occurred among the emigrants; bad workmanship in lengthening the vessel, and that all were kindly treated on the Greece.

NEW JERSEY.

TRENTON ELECTION.

TRENTON, April 14. The municipal election in this city yesterday was closely contested. The Democrats secured a majority of the Common Council and the Republicans claim a majority in the Board of Freeholders. John Priest, Democrat, was re-elected Mayor by a reduced majority.

LOUISIANA.

ARRESTED

NEW ORLEANS, April 14. Abraham Hartman charged with obtaining $100,000 worth of boots under false pretences from Claflin of New York, was arrested here yesterday.

A TEMPESTUOUS PASSAGE. The Allan steamship Caspian, Captain Frocks, arrived at Portland, Tuesday evening, having left Liverpool on the 20th ult. She experienced very severe weather, the entire voyage being a succession of high seas, head winds and fearful gales. About eight o'clock on the night of March 31, a hurricane came on which lasted until four o'clock the next afternoon. So violent was it that no one dared to be on deck, and all the crew except those on duty were ordered below. Those on deck were tied to the shrouds, to prevent being washed overboard, and the captain gave his orders from the quarter-deck. The decks were constantly covered with water, the huge waves breaking completely over her, and the captain states that he could not see a single part of the vessel, excepting the masts, which seemed to rise from a cataract of spray. Three boats were washed away, and two were smashed. In fact, everything movable on deck was carried overboard. The steamship sustained but slight damage. She had 16 cabin and 155 steerage passengers.

AN INCENDIARY. We desire to call the attention of underwriters to a new material used for martingale rings, knife handles, coupla, &c., which we are informed bears the name of "Celluloid." It is to all appearance as hard as iron, and, when cold, possesses great strength and tenacity; but it is an incombustible as tinder, and it burns most readily when afire. A piece of it which will act as a lens of this material, made up in any form, and put into a combination so nicely as to escape the observation of the wearer, would be a most dangerous weapon in the hands of any fire-bug desirous of destroying property. We do not know how easily this material can be made, but if it is made in the form of knife handles, martingale rings, &c., it will be a most dangerous article to have in the possession of incendiaries.—[Journal of Commerce.

SUPREME JUDICIAL COURT

APRIL CIVIL TERM.

CHIEF JUSTICE APPLETON Presiding.
EZRA C. BENTLEY, Esq., Clerk.
J. D. PULSIFER, Stenographer.

Tuesday, April 14. William E. Annis vs. James Gallagher.

Trespass, for cutting and carrying away grass from plaintiff's land in Hermon. Action brought to settle disputed line between adjoining farms lying on the eastern side of the Little Kenduskeag. Plaintiff owns the land on the north side of this line and defendant on the south side. The line and point of division on the easterly side are agreed. The question is how to run the dividing line to the river. If run perpendicular to the easterly line, as all the deed require, then the plaintiff is entitled to recover.

Defence—Yes but as a matter of fact when I bought and went upon my farm in 1865, I located an actual line, partly by fences and part by of furrows, and a stake by a maple tree at the river which is the stake that the deeds refer to. Monuments control courses.

Reply—Run the disputed line at right angles with the east line and I can show you a stake at the river as an old stump a few rods south of the maple line. The river takes a sudden bend at the maple and runs to the stump nearly in the direct on with the old line of the lots. Verdict for def.

Donnigan, Addison with Godfrey.

Robert Fulle; et a., vs. William Gray.

Assumpsit on the note:—

$100 LINCOLN, Me., June 1, 1871.

Two months after date I promise to pay C. B. Mann, agent or order the sum of one hundred dollars at First National Bank, Bangor, Me., value received. WILLIAM GRAY.

Indorsed:

Waiving demand and not de...
C. B. Mahan, agent.

Also another note of like tenor, payable in 4 months.

Defence—That I signed the notes first they were without consideration, I gave four $100 notes for one mowing machine delivered and others to be delivered; when ...ordered, and for the right to sell machines in towns. The machine did not prove worthless, and the company represented by Mahan refused to send machine. It was all a fraud and a swindle.

Reply—Perhaps so, but we have used the note 18 days after it was given and before it was due, without knowledge of fraud.

Rejoinder—If you prove you are innocent holders, for a valuable consideration, without notice of fraud, and under circumstances not calculated to awaken suspicion, and put you upon your guard, then you are entitled to recover. We have showed a fraudulent inception of the note, the burden of proof is upon you to prove that you are innocent holders. The law allows you to prove witnesses. You do not testify. That is one circumstance. Verdict for defendant.

Godfrey, McLellan.
